

Survey Technician

Salary Range: \$52,000 - \$72,000 depending on experience

Join a High-Performance Team That's Redefining Excellence

Cedarville Engineering Group, LLC (CEG) is a civil engineering and environmental design-build firm dedicated to improving quality of life through smart, sustainable infrastructure. Our work combines technical excellence with real-world impact – delivering innovative solutions that serve communities, protect natural resources, and stand the test of time.

CEG is focused on building a culture where top performers thrive. We believe that success comes from a clear set of core values that guide everything we do:

Responsive – We move quickly, communicate clearly, and stay one step ahead. Our team members are proactive and reliable, always ready to take action.

Driven – We set ambitious goals and pursue them with intensity. Motivation, ownership, and results are in our DNA.

Problem-Solvers – We don't just identify challenges – we take pride in solving them. We value resourcefulness and creative thinking.

Growth-Oriented – We seek out feedback, learn constantly, and push ourselves to get better every day. If you're hungry to grow, you'll fit right in.

No Assholes – We have zero tolerance for ego, entitlement, or toxicity. We work hard, treat people with respect, and leave drama at the door.

Role Overview

We're seeking a Survey Technician as a key member of the office survey team assisting in the performance of boundary, ALTA, topographic, right-of way acquisition, transportation, and construction surveys utilizing Civil 3D technologies. This role requires technical expertise, attention to detail, and the ability to work collaboratively in a fast-paced environment.

Responsibilities

- Assist the PLS with all aspects of the daily office workload.
- Supervise the survey crew in the absence of the PLS.
- Work independently as required.

- Daily uploading and downloading of data collectors.
- Daily Civil 3D tasks.
- Perform computer-aided design and drafting.
- Perform construction stakeout computations.
- Prepare plans for Boundary Surveys, ALTA/ACSM Land Title Surveys, and PennDot right-of-way surveys.
- Assisting with survey computations.
- Collect, analyze, and interpret field data to create accurate maps, plans, and reports.
- Collaborate with engineers, project managers, and clients to ensure survey accuracy and compliance.
- Assist in boundary determination, topographic mapping, and construction layout.
- Assist in maintaining and calibrate surveying equipment regularly.
- Ensure compliance with industry standards, regulations, and safety procedures.
- Continually advance knowledge with upgrades in technology.

Qualifications

- Associate's degree or bachelor's degree in surveying, Geomatics, Civil Engineering, or related field is preferred.
- 3+ years of relatable experience.
- Experience with CAD software (AutoCAD, Civil 3D preferred), and GIS applications.
- PennDot right-of-way, construction staking and as-built survey experience preferred.
- Strong mathematical, analytical, and problem-solving skills.
- Ability to interpret engineering drawings and legal property descriptions.
- Excellent communication and teamwork skills.

Why Join Us?

- Be part of a high-performance team that values growth, responsiveness, and collaboration.
- Work on meaningful projects that improve infrastructure and quality of life.
- Enjoy a supportive culture that embraces smart use of technology and innovation.
- Competitive salary, benefits, and opportunities for advancement.

How to Apply

Please submit your resume and a brief cover letter outlining relevant experience on our company website under the correct job posting [Current Job Opportunities and Careers- CEG, Pottstown, PA](#). We will require proof of all applicable certifications. We review applications on a rolling basis—apply early for priority consideration!
