

Professional Land Surveyor

Fahringer, McCarty, Grey, Inc. (FMG), a multi-disciplinary firm located in Monroeville, Pennsylvania, is currently seeking a Professional Land Surveyor licensed in the State of Pennsylvania. FMG has been in the Landscape Architecture, Civil Engineering, and Land Surveying business since the early 1960's. Our goal is aiding our clients in achieving their vision by providing intuitive designs, cost effective solutions, and final plans with an aesthetic for refined and accurate details. We are a small business with a great reputation and we take pride in how we treat our employees. We offer excellent healthcare benefits, generous time off, and competitive pay. And, our offices are located in a uniquely designed building that is surrounded not by asphalt, but by Mother Nature which always allows for a more pleasant work environment.

Overview:

This is a full-time (40 hours per week), in-office position with paid overtime. The ideal candidate shall have a minimum ten (10) years of combined experience in field survey operations and office practices in the land surveying, engineering, and site construction industry.

Required Qualifications:

- Current Licensed Professional Land Surveyor in the State of Pennsylvania
- Experience with Spectra surveying GPS systems and data collection
- Experience with AutoCAD Civil 3D (latest versions)
- Excellent communication skills, with the ability to work both independently and as a team member
- Ability to oversee, review, and certify work performed by self and others to ensure compliance with all local, state, and federal regulations

Desirable Qualifications:

- A working knowledge of Microsoft Office software
- Being licensed, or capable of becoming licensed, in the States of Ohio, New York, and West Virginia

Key Responsibilities:

- Coordinate on a daily basis with Project Managers, clients, other staff, and contractors to schedule the field crew
- ALTA/ASCM Land Title Surveys preparation and coordination with Title Companies and Legal Counsel
- Deed research and plotting; boundary survey research and resolution
- Preparation of Metes and Bounds descriptions and exhibits
- Plan and execute from field to finish all surveying elements, including but not limited to; points, elevations, existing condition contouring, area calculations, as-built surveys, record plans, lot line calculations, subdivision/recorded plans, and the filing of plats
- Minimal preparation and set-up of survey data for field crew
- Prepare Scope of Services and budgets for survey projects
- Develop business relationships and industry associations with clients, consulting team members, and contractors

Benefits:

- Fully paid Medical, Dental, and Vision Insurance premiums and deductibles
- Matching 401(k)
- Paid vacation, sick leave, and holidays
- Paid license renewal(s), continuing education fees, and affiliated association membership dues

Compensation:

- \$40 to \$48 per hour commensurate to experience
