---

For well over 25 years, the Pennsylvania Society of Land Surveyors has hosted an annual conference providing educational, networking, and socializing opportunities for our members and guests. As we all attempt to navigate the stormy waters of 2020 and the many challenges it has presented, the Education Committee has been working hard to plan the 2021 Annual Conference.

After much discussion and evaluation, it is my duty to announce that **the Annual Conference scheduled for January 24-27, 2021 in Hershey will not be held**. Under the current restrictions placed on indoor gatherings by the Governor of Pennsylvania, the event cannot be held. This is not a decision that was taken lightly, but one that we felt was necessary to protect our members and guests as well as remain fiscally responsible to the membership.

As with any change comes opportunity, the Education Committee is working on planning alternate events to be held on a digital platform. These events are intended to provide everyone with educational opportunities throughout the first half of 2021. Our goal is that everyone will have more than ample opportunity to obtain the continuing education credits they will need to renew their licenses in September of 2021. We are also looking to plan some smaller in person events in mid or late 2021 that could provide opportunity for in person networking and socializing.

Stay tuned to your email and [www.psls.org](http://www.psls.org) for future announcements on alternate events.

We hope to see everyone back in Hershey for the 2022 Annual Conference!

Sincerely,

Scott Reeser, Chair  
PSLS Education Committee
